

WOMEN EMPOWERED

SPRINGROOT CLEANTECH INNOVATIONS

Integrated Waste
Management Services

Transforming Waste into Value through Tech & Innovation..!

Why Springroot..?

Our focus is on increasing resource recovery rates, reducing landfill dependency, lowering carbon emissions, and delivering measurable sustainability outcomes.

Our Vision

To create a future where every city operates on a circular economy, eliminating landfills through technology and innovation.

Our Mission

"Zero Waste to Landfills."

THE CHALLENGE

India's growing landfill crisis is driven by inefficient waste management systems, resulting in the loss of valuable resources and increasing environmental pollution.

- 1. Poor Source Segregation**
 - 2. Inefficient Collection Systems**
 - 3. Limited Material Recovery Infrastructure**
 - 4. Inadequate Wet Waste Processing**
 - 5. Improper Reject Waste Disposal**
-

OUR SOLUTION

Springroot delivers an integrated circular waste management system designed to maximize resource recovery and achieve Zero Waste to Landfills.

- 1. Awareness & Source Segregation campaigns**
- 2. Smart Collection Systems**
- 3. Operational Material Recovery Facility (MRF)**
- 4. Composting, BSF Larve Production & Biogas units**
- 5. Waste-to-Energy Plants & Cement Klin**

OUR SERVICES

End-to-End Waste
Management Services

SEGMENTS

- Grama Panchayats
- Municipal Bodies
- Tech Parks
- Industrial Townships
- IFM Companies
